

Dear Council members,

This is a petition from student, staff, alumni, and members of the wider London School of Economics and Political Science community. We are writing to urge council to vote in support of the [proposals](#) put forward regarding divestment on Tuesday 25th June. The vote seeks to undo LSE's financial complicity in crimes against the Palestinian people, the arms trade, and climate breakdown.

We are deeply concerned about LSE's existing investments and investment policies, and call for improved transparency, accountability, and a move to immediately divest. We call for an overhaul of the existing ESG policy and especially the specious direct/indirect investment distinction, which has unequivocally failed to keep LSE's investments clear of the four egregious activities outlined in the the [Assets in Apartheid: LSE's Complicity in Genocide of the Palestinian People, Arms Trade, and Climate Breakdown](#). We support the immediate actions and next steps put forward in the *Assets in Apartheid* report with the greatest urgency. In particular, we demand the following from Council:

Enact all proposals made in Section 5 of the document submitted to the Council for review and decision, all relevant subsections, and their clauses. These include:

- 5.1 – Divestment: LSE will divest in whole and with immediacy from the following egregious activities;
 - 5.1.a. Crimes against the Palestinian people, including 5.1.a.i. - 5.1.a.v.;
 - 5.1.b Extraction and/or distribution of fossil fuels;
 - 5.1.c. Proliferation and/or manufacture of arms; and
 - 5.1.d. Financing fossil fuel companies and/or nuclear weapons producers.
- 5.2 – Transparency: LSE will ensure accessibility and public accountability of its investments portfolio;
- 5.3 – ESG Policy: LSE commits to revising the ESG policy starting September 2024; and
- 5.4 – Governance: LSE establishes accountability mechanisms and reconfigures investments governance to ensure democratic and ethical oversight.

These demands were supported by the record-breaking turnout and overwhelming 'yes' majority, with over 2,400 votes and 89% in favour in the LSESU's student referendum on divestment, alongside a unanimous LSE UCU branch motion and numerous prior petitions from the LSE community (including current students, the [Jewish community](#), [staff and faculty](#), and [LSE alumni](#)). Divestment was also a core demand for the LSE students and their supporters who held the encampment in the (Marshall) Bloom Building for nearly five weeks before their forceful eviction on Monday 17 June following legal proceedings by LSE. Representatives of the LSESU Palestine Society's *Assets in Apartheid* report have extensively discussed the case for divestment with members of LSE's Investments Sub-committee, Finance & Estates Committee, and Council.

Over the past 250+ days, over 35,000 Palestinians have been killed in Gaza, and the lives and environments of many more completely destroyed. This petition follows the United Nations experts' [statement](#) released on 20 June, declaring that the "transfer of weapons and ammunition to Israel may constitute serious violations of human rights and international humanitarian laws". This most recent urgent concern for "allegations of war crimes and crimes against humanity" applies to LSE since it stipulates that "An end to transfers must include indirect transfers through intermediary" entities, where funds "could ultimately be used by Israeli forces, particularly in the ongoing attacks on Gaza." The statement further stresses that "Financial

institutions investing in these arms companies are also called to account," and specifically names JP Morgan, one of LSE's three egregious fund managers identified in the divestment report.

The urgency of this crisis brings a sharp light onto Western academic institutions, and history will judge their decision-making bodies in this moment. LSE has a historic opportunity to live up to its founding purpose to "understand the causes of things," explicitly "for the betterment of society". There is now no doubt that the causes of things like plausible genocide, illegal settlements and occupation, and sustained apartheid are based in the financial complicity of institutions such as LSE. Now is the time for Council to vote and take decisive action, for the betterment of society. We urge Council once more to recognise the very real, very severe present and future implications of these investments, and divest now.

Please urgently sign below by 25th June, when this petition will be sent to Council, and share widely!

1. Jack Farrar, postgraduate sociology
2. Marie Vandermeulen; MSc Human Rights and Politics
3. Flora Darya Rustamova, Communications Officer, LSE Faith Centre
4. Sophia, Law School
5. Ardour Kelshiker-Williams, LSESU LGBTQ+ Officer ‘
